### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: None of the prior art teaches or suggests calculating a linear concentration of extracted linear structures with respect to each pixel, calculating directional distribution indices of the extracted linear structures and using the linear concentrations and directional distribution indices to obtain calculated evaluation values used to detect candidate regions for tumor patterns, as variously required by claims 1 and 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Claims 1-18 are allowed.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Takeo and Takeo et al. teach detecting suspected abnormal regions in radiation images, but neither suggests combining calculated linear concentrations with calculated directional distributions to make this detection.

1. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Johns whose telephone number is (571) 272-7391. The examiner is normally available Monday through Friday, at least during the hours of 9:00 am to 3:00 pm Eastern Time.
